

Life Care

“Having Life Care puts me and my family at ease.”
– Anna, Summit resident

Financial peace of mind—we are a Life Care community, which means even if your care needs increase, your living fees will remain at the independent living rate.

What is Life Care?

- A plan to protect your assets from runaway costs associated with stays in an assisted living, memory enhancement or long term care
- Offers priority access to higher levels of care within our continuum if the need arises
- Monthly fees do not increase as level of care increases
- Offers a huge savings from potential long term care costs

Life Care Tax Benefit

- Potential Tax Advantages – see section 213 of the Internal Revenue Service Code
- The Life Care component of the entrance fee is considered “prepaid health care” by the IRS
- Likewise, the portion of the monthly fee that is allocated to your Life Care contract is considered “prepaid health care” by the IRS
- Consult your tax advisor for complete and accurate information

Long-Term Care Cost Illustration

2021 Pricing	Monthly Fee Independent Living (one bedroom apt)	Monthly Fee Assisted Living (one bedroom apt)	Monthly Fee Skilled Nursing (private room)	Annual Skilled Nursing Costs
